- Around eyes (crows feet)
- Between eyes (frown lines)
- Mouth (frown lines)
- Nose (bunny lines)
- Lip (upper & lower lines)

Botox treatment areas: Forehead, Crows Feet (around the eyes), and Gabella (between the eyes)

DERMAL FILLER

JUVEDERM®, RESTYLANE®, RHA® AND SCULPTRA® PORTFOLIOS

Fillers are a minimally invasive service that can restore volume, contour facial features and enhance fullness. Patients can correct moderate to severe facial fine lines, wrinkles and folds by using hyaluronic acid which is a naturally occurring substance in the body. No allergy testing is required for these products.

Commonly treated areas:

- Under eye
- Cheeks
- Chin
- Jawline
- Lip

Midface Enhancement, Chin and Jaw Definition

Lip Enhancement

Midface and Lip Enhancement

VITAMIN B12/MIC

Helps maintain good health and has been shown to be beneficial in helping to reduce stress, fatigue, improve memory and cardiovascular health, and maintain a healthy body weight.

PRP/PRF

Platelet rich plasma treatments are a form of regenerative medicine. It works by first drawing a patient's blood and then spinning it in a centrifuge to concentrate the platelets. Then these are injected back into areas in need of cell regeneration. PRF therapy retains fibrinogen molecules to give a boost to the healing process.

KYBELLA

This product addresses submental fat under the chin, "double chin." Reduce unwanted fat with an injection of Deoxycholic Acid under the chin which assists with dissolving fat cells.

Prices vary based on provider and service offering.
