

Injection & Skin Specialist

Savannah Brennan

FNP, BSN, RN, BA, AP Aesthetician

[@savannah_brennan](https://www.instagram.com/savannah_brennan)

Savannah brings an unparalleled passion and enthusiasm to her field of aesthetics. This is evident through her ongoing pursuit of continual education so that she can provide safety and the most current aesthetic treatment for her clients. She is a Registered Nurse Practitioner and a licensed advanced practice Medical Aesthetician, with an extensive background in aesthetic business, aesthetic skin care, and injectable training. Savannah enjoys assisting her clients with personalized care by developing a customized aesthetics plan that fits their goals, lifestyle, and budget. Educating clients is a priority for Savannah. As a life-long learner, she has spent six years of university education preparing for the role of being an injectable nurse and has spent over 700 hours of training towards her current aesthetic practice. Savannah continues to expand her knowledge with continued hands-on training, conferences, self-study, and mentoring under one of the top aesthetic nurses in the nation.
